

Paraffin wax

Baykim Chemicals was established by Ahmet Isfendiyar Balgüç in 1983, and has continued its development both at home and abroad as one of the leaders in the petro chemistry industry since that day. BAYKIM, exporting 90% of its production capacity, established its second factory in 2007 in Romania, and the third one in 2008 in Iran.

Baykim Chemicals

TURKEY / ROMANIA / IRAN

New Laboratory

Every stage of the production is monitored beginning from the approval of the raw materials until the shipment of the products by the quality department. The laboratory regularly test the products and ensures the conformity to the required specification of each product. Further tests are also held by 3rd party independent laboratories according to Customer's demand

Product List

Focus on What You Do Best

PRODUCT	MELTING POINT	OIL CONTENT	PACKING DETAILS
